# Wetlands Workshop

Presenters: Meghan Martinez and Mikaela Zeigler

Oyster reefs use to be much more extensive in our bays than they are now. Oysters are referred too as “keystone” species because the entire habitat often depends their presence. Come join Harte Research Institute’s program as graduate students Meghan Martinez and Mikaela Zeigler share about the amazing biology of Oyster Reefs her in the Corpus Christi area and current research at Texas A&M University Corpus Christi. Program will include a short presentation and a fun activity for kids and families.

- Program is free and designed for ages 6 and up.
- Online registration is required at <http://register.ccparkandrec.com>.
