

For
Everyone

Sept 21, 2019
2-3:30pm

*Exploring the
Biology and
Ecology of the
Eastern Oyster*

Presented by: TAMUCC graduate students – Harte Research Institute Coastal Conservation Lab

We will be learning about oysters, how they shape conditions in local estuaries and what conditions oysters require for survival. Hands on activities will include an oyster dissection, exploring salinity with refractometers, oyster reef community live tank observation, and an oyster anatomy activity. Participants will also learn about the important role that restoration plays in local oyster reef communities.

- Program is **FREE** and designed for ages 6 and up.
- Online registration is encouraged at <http://register.ccparkandrec.com>.
